## Packaging and Labelling of Samples

- All samples should be double-bagged and sealed to prevent leakage
- Be placed in a durable container to prevent damage in transit
- Each sample should have a label affixed with a unique sample description or code

The outer container should have:

- A label stating the package contains Quarantine Material and a brief description of the contents (eg frozen grapes)
- Details and accreditation number of the AWRI (as receiver)
- Contact details of the sender
- Contain a completed copy of the AWRI Plant Material Movement and Declaration Form and any other required documentation (eg Plant Health Certificate)

Samples should be transported by courier or personal carriage

Please note: This document is suitable for fruit and juice coming from all areas, including phylloxera-infested zones, as long as the conditions declared above and below have been met. Permits or certification are required by the state of origin to enable fruit to be moved out PI and PR zones. An up-to-date outline of these zones can be found on the Phylloxera and Grape Industry Board of South Australia website (<http://www.phylloxera.com.au>).

## **Conditions**

1. **FOR PEZ:** Samples should be frozen and a completed copy of this declaration form should accompany the consignment. A PHC is **not** required.
2. **FOR PIZ/PRZ:** A Plant Health Certificate (PHC) specifying the **origin of the material and the treatment process** is to be obtained from the state of origin. The certificate is to accompany the consignment and a copy retained by the sender. A completed copy of this declaration form should also accompany the consignment.
3. **Samples from a PIZ or PRZ** must be frozen at -18°C or less for a minimum of 24 hours prior to transport to the AWRI and indicated on the PHC. Juice samples may be placed in a sealed, unbreakable vessel.

**A copy of the attached form MUST accompany the samples along with any other paperwork, ie PHC, purchase order etc. A PHC can be obtained by contacting the relevant branch or office of your local Dept of Primary Industries in your state.**

**Samples not meeting the above conditions may be isolated and possibly destroyed without notice.**
